

ISS 2026 AI Hackathon

Track 1: AI-Assisted Infectious Disease Screening

Evaluation Criteria

Submissions will be evaluated on technical quality, model performance, innovation, explainability, and public health relevance.

Criterion	Weight
Data Understanding and Preprocessing	15%
Feature Engineering	15%
Model Performance	30%
Explainability and Interpretation	15%
Innovation and Clinical Relevance	15%
Presentation and Technical Documentation	10%

Scoring Guidance

Data Understanding and Preprocessing (15%)

Judges will assess this component based on quality, completeness, relevance, and technical execution.

Feature Engineering (15%)

Judges will assess this component based on quality, completeness, relevance, and technical execution.

Model Performance (30%)

Judges will assess this component based on quality, completeness, relevance, and technical execution.

Explainability and Interpretation (15%)

Judges will assess this component based on quality, completeness, relevance, and technical execution.

Innovation and Clinical Relevance (15%)

Judges will assess this component based on quality, completeness, relevance, and technical execution.

Presentation and Technical Documentation (10%)

Judges will assess this component based on quality, completeness, relevance, and technical execution.

Total Score: 100%
